## REPORT OF THE SCHOOL SUPERINTENDENT

To the Citizens of the School District of Alexandria :

I submit herein my second annual report as superintendent of schools.

The facts relating to the Alexandria schools for the school year 1919-'20 are indicated by the following table.

TABLE A

School	Teacher	Weeks	Total Enroll.	Average Member.	Average Attendance	Per cent. of Attendance
Riverside	Isabel M. Morey	34	27	22.8	18	79
So. Alex.	Mary M. Stebbins	36	28	18.7	17.2	90
Village	Emogene B. Roby	36	20	16.7	12.97	78
	Ruby M. Ladd					

Two schools succeeded in completing the legal school year of 36 weeks. The other fell short a fortnight, owing to illness and very severe weather. The average, 35 weeks, is a good advance on the previous year, when schools averaged only 29 weeks. We shall, without question, complete the 36 weeks this year in all the schools.

I think the citizens of Alexandria will be interested in some comparative figures showing, in certain particulars, a comparison with the other districts in the supervisory union, Table B, and in other particulars with other towns in this part of the state, Table C.

It will be seen (Table B) that all towns of the union, with the exception of Bridgewater, lost population between the census of 1910 and that of 1920. The great majority of the rural towns in the state suffered a similar loss, as

did those of the entire country. This movement, from the country to the city, if continued further, spells disaster, and it is the business of every good citizen to do whatever is possible to check it. Is it not plain that good schools are a vital factor in the situation, and that the community which maintains good schools will be able to offer attractions in competition with the city which the one failing to maintain good schools cannot offer.

It will be seen by the table that teachers' salaries have advanced in all the districts, together with most of the cost of maintaining schools, and this has lead to greatly increased demands upon the State Board. Grants to each district have been largely increased, that to Alexandria nearly doubled. Every district in the union, except Hebron, has found it necessary to apply for state aid.

Table C is comprehensive enough to give a good idea of the range of salaries of elementary teachers in the rural towns of New Hampshire. The last column shows the heavy cost of educating children in rural districts, where each teacher instructs only a small number of pupils. For this table I am indebted to Superintendent W. H. Buker, of Meredith, who has lately collected the figures.

Respectfully submitted,

CHARLES A. BRECK, Superintendent.
